Anti-Cyberbullying
Policy
September 2024

Title	Anti-Cyberbullying Policy
Summary	Guidance for all stakeholders regarding: a definition of cyberbullying; the procedures for responding to instances of cyberbullying
Purpose	To ensure an effective response to cyberbullying by the whole School community
Operational Date	September 2024
Next Review Date	August 2027
Author	Vice Principal (Pastoral)

To be posted on School website	Yes
Date and version posted (if applicable)	September 2024

Since cyberbullying is a form of bullying, this policy should be read in conjunction with the School's Anti-Bullying Policy.

1. Cyberbullying can be defined as the use of Information and Communications Technology deliberately to upset someone else. It differs from other forms of bullying type behaviour in a number of ways including:
 - The scale and scope of cyberbullying can be greater than other forms of bullying type behaviour.
 - Students experiencing bullying type behaviour may feel continually threatened and may have no place or time when they feel safe.
 - The person experiencing bullying type behaviour may not know the identity of the person displaying bullying behaviour.
 - Evidence may be readily available.
2. Cyberbullying is viewed by the School as a Safeguarding concern and as such will be treated with the utmost seriousness by the School. Any reports of cyberbullying by or against a pupil, a member of staff (paid or voluntary), a Governor or family members of any of the above, and whether in School or outside School, will be investigated. The information which will be used in deciding any course of action will be the School's Anti-Bullying and Positive Behaviour Policies, the School's Code of Conduct for Staff, and the relevant laws (Appendix 1). Heads of Year are updated at monthly Head of Year meetings regarding contemporary cyber safety/e-safety updates.
3. The School will provide all pupils with information sessions on cyber safety. This will include information on the current laws governing the transmission of indecent or malicious material, and how to report offensive material online. In particular, all pupils in Form I will attend an Internet Safety presentation in their first term at the school. Appendix 2 details some useful websites which deal with Internet safety.
4. The School will use a range of means to inform and support parents regarding cyber safety issues. This will include presentations at Induction Evenings and regular information sent via Pupil Notes. Pupils and parents are also encouraged to download the Safer Schools App.
5. The parents of all pupils of the School will be required to sign an Acceptable Use Policy regarding the use of School computer equipment by their son(s)/daughter(s). This will include, but not be limited to, information regarding anti-cyberbullying.

6. The information provided for both pupils and parents will include the advice that any evidence of cyberbullying should not be deleted but should be retained as evidence.
7. Where an instance of cyberbullying takes place by a pupil in School, or at a School event, the School will take positive, effective action according to the School's Anti-Bullying and Positive Behaviour Policies.
8. For all other instances of cyberbullying outside School by a pupil of the School, the School will seek evidence of the cyberbullying and will inform the parents of the student displaying the bullying type behaviour and the parents (or other school if appropriate) of the pupil experiencing the bullying type behaviour. This will generally require the parents of the pupil displaying bullying type behaviour to come into School so that the material may be viewed. A Bullying Concern Assessment Form (BCAF) will also be completed.
9. Where an instance of cyberbullying takes place outside School, by a pupil of another school against a pupil of the School, the School will make all possible efforts to identify and inform the other school. The parents of the pupil experiencing bullying type behaviour will also be informed.
10. In all instances of cyberbullying by a pupil of the School, the School will seek the co-operation of pupils, and if necessary, parents and Internet/mobile phone hosts, to have the material removed.
11. Where a parent exercises his or her right to involve the police in an alleged instance of cyberbullying, the School will co-operate fully with the police and will discharge its duties in compliance with the current laws.
12. Where the cyberbullying is judged by the School to be sufficiently serious, the School may refer the matter to the PSNI. Repeat offences may fall into this category.
13. Pastoral support, including counselling by the School Counsellor and Mentoring, will be offered to any pupil who is experiencing bullying type behaviour. This information will be included on the BCAF.
14. Guidance and support will be given by the School to any pupil who is displaying bullying type behaviour. The help of outside agencies may be sought.
15. A record of all reports of cyberbullying, and of ensuing investigations and actions, will be maintained in school. The legislative flow chart will be followed and a BCAF completed.

Appendix 1: Current Laws Which Address Cyberbullying

1. Malicious Communications Order 1988
2. Section 1 Malicious Communications Act 1988
3. Section 4 Protection from Harassment Act 1997
4. Section 127 Communications Act 2003
5. Section 16 Offences against the Person Act 1861
6. Article 10 of the European Convention on Human Rights
7. Defamation Act 2013
